

High school chemistry. Elective 4 chemical reaction theory - PEP - Jinglun typical school textbook analysis - Revision

Filesize: 3.75 MB

Reviews

The book is great and fantastic. Better then never, though i am quite late in start reading this one. I realized this publication from my dad and i advised this ebook to find out.

(Dr. Blair Mann)

Date :2011-5-1. Many students feel that way: materials are familiar. but also listen in class pupil. but they fail to get good exam results. The reason is that teaching materials and examination requirements of a gap. examination and selection of classroom teaching a difference. This requires the materials above. outside the classroom can be added to improve. up to the entrance of the selection requirements. This book is filled from the following two aspects of this gap. First is the depth of excavation materials. Teaching materials easy to understand. but which contains a wealth of information. we have included information materials excavated. and a systematic order. so that the connotation and extension of knowledge. knowledge of the link between the full show. The second is to complement and expand classroom teaching. This book is not a repeat of classroom teaching. but teaching in the classroom. based on the complement of classroom teaching. enhance. and tap those students difficult to understand. difficult to grasp the content. and summarized for the students put on a regular line. Focus on knowledge of chemical and life hot links. important problem-solving methods and techniques of finishing. the topic of the same type of knowledge induction. chemical experiments to explore and so on. These time constraints or because classroom teachers. the level of play of the problem. not all in the classroom to teach students. and these are precisely the exam is to test. students widen the gap lies. Contents: Chapter chemical reaction with the first section of energy and energy changes in chemical reaction heat of combustion of Section III of chemical reaction heat energy is calculated...
