The past season has beerrunfavorabl in many localities because of the extremely wet springfollowea by summer drouth. The number of plats destroyed by hWvyyrains would surprise any one knowing the state only as Drouniy/Kansas. About 100 samples have been Analyzed thus far, coming from all parts of the state. Twenty-fweVf these were grown in Eeno county and eight in Sumner county, hese counties giving special attention to the test. They, being in th southern part of the state, arc not well situated climatically. Tweny-five samples from Eeno county gave an average resu/t of 10.98 per cent of sugar in the juice. The eight samples froin Sumner county gave 11.32 per cent. These beets are thus of only fair average quality. Tho they could be used in sugar-making, the manufacturers would be at a...
