

Assessment of Polychlorinated Biphenyls (PCBs) in Nairobi River

By Elizabeth Nthambi Ndunda

LAP Lambert Academic Publishing Dez 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x5 mm. This item is printed on demand - Print on Demand Neuware - Despite the ban in production of Polychlorinated Biphenyls (PCBs) through the Stockholm Convention on Persistent Organic Pollutants (POPs), they continue to be detected in the environmental matrices owing to their persistent, use of PCBs containing equipments, and past use. PCBs in levels above those permitted by Environmental Protection Agency (EPA) in surface water were detected. PCBs have been classified as probable carcinogens by the International Agency for Research on Cancer (IARC) and through research; they have also been classified as endocrine disrupting compounds (EDCs). EDCs have been reported to disrupt development and reproduction even at low concentrations and their presence in the environment poses a risk of adverse health effects to humans and animals. 80 pp. Englisch.

Reviews

Here is the finest publication we have read right up until now. It is actually written in easy words instead of difficult to understand. Its been written in a remarkably easy way in fact it is only right after i finished reading this book in which basically changed me, modify the way i really believe.

-- **Prof. Vanessa Smitham V**

It in just one of the best ebook. I could possibly comprehended everything using this written e ebook. You wont feel monotony at whenever you want of your time (that's what catalogs are for regarding should you check with me).
